DIRECTORS LAB

Inspire. Challenge. Connect. Nurture.

In 1995, the Lincoln Center Theatre in New York held the inaugural Directors Lab, and for 25 years they have nurtured the development of theatre directors from across the world. In 2015, the acclaimed lab expanded to Australia with **Directors Lab: Melbourne** as part of Melbourne Festival.

Like its New York counterpart, *Directors Lab: Melbourne* enables professional directors to take part in an intensive creative laboratory.

The Lab will run over eight consecutive days, with a combination of masterclasses, dynamic conversations, investigations, creative explorations as well as seeing and discussing works presented by the Melbourne Festival.

Directors will be actively involved in the participation as well as the presentation of sessions, sharing their skills, methodologies and techniques with a community of national and international directors.
